

## Gensource Potash Announces Closing of Private Placement Offering

**SASKATOON, Saskatchewan, April 27, 2026** – Gensource Potash Corporation (“Gensource” or the “Company”) (TSXV: GSP), a fertilizer development company focused on sustainable potash production, is pleased to announce the closing (the “Closing”) of a non-brokered private placement offering of units (“Units”) of the Company at a price of \$0.15 per Unit (the “Offering”). Each Unit consists of one common share in the capital stock of the Company (a “Common Share”) and one Common Share purchase warrant of the Company (a “Warrant”). Each Warrant is exercisable to acquire one Common Share (a “Warrant Share”) at an exercise price of \$0.25 per Warrant Share for a period of 18 months following the date of issuance, subject to the Company’s warrant acceleration right described below.

At the Closing, the Company issued 7,133,269 Units for aggregate gross proceeds of \$1,069,990.35. The Common Shares and Warrants comprising the Units issued pursuant to the Offering are subject to a statutory hold period of four months and a day from the date of issuance.

If the Common Shares have a closing price on the TSX Venture Exchange (or other exchange on which the Common Shares may be traded) at or above \$0.30 per Common Share for ten (10) consecutive trading days, the Company may, at its option, accelerate the expiry of the Warrants (the “Acceleration Right”). To exercise the Acceleration Right, the Company must provide written notice to holders of Warrants. Holders will have thirty (30) days from the date of such notice to exercise their Warrants, and any Warrants not exercised within that period will be cancelled.

The Company intends to use the net proceeds from the sale of the Units to support its previously announced transaction with a large and diversified Southeast Asian conglomerate and for general corporate purposes.

“Strong market support is key to success in the completion of the Company’s upcoming transaction regarding the Tugaska Project and its development. We thank existing and new shareholders for their support in this respect. Balancing the need to finance critical company activities is prudent control of the company’s share structure. To that end, management is pursuing a conservative approach, only raising financing immediately required. We are pleased to close this tranche and focus fully on advancing our project partnerships, where we believe the real shareholder value lays – exciting times ahead!” said Mike Ferguson, President & CEO.

In consideration for their services, certain persons (each, a “Finder”) received a cash commission equal to 6% of the gross proceeds of Units sold through such Finder and compensation warrants to purchase Common Shares equal to 6% of the total number of Units sold through such Finder, exercisable for 18 months from the closing date at an exercise price of \$0.15 per Common Share (the “Broker Warrants”). The Broker Warrants are subject to the same Acceleration Right as the Warrants, as described above. At the Closing, the Company paid \$51,299.42 in cash commissions and issued 341,996 Broker Warrants.

The closing of the Offering remains subject to the final approval of the TSX Venture Exchange.

For the month of April 2026, the Company issued an aggregate of 16,731,769 Units for total gross proceeds of \$2,509,765.35. In connection with these April financings, the Company paid an aggregate of \$137,685.92 in cash commissions and issued 917,906 Broker Warrants.

### **About Gensource:**

Gensource is a fertilizer development company based in Saskatoon, Saskatchewan and is on track to become the next fertilizer production company in that province. With a modular and environmentally leading approach to potash production, Gensource believes its technical and business model will be the future of the industry. Gensource operates under a business plan that has two key components: (1) vertical integration with the market to ensure that all production capacity built is directed, and pre-sold, to a specific market, eliminating market-side risk; and (2) technical

innovation which will allow for a modular and economic potash production facility, that demonstrates environmental leadership within the industry, producing no salt tailings, therefore eliminating decommissioning.

#### **Caution Regarding Forward-Looking Statements**

This news release may contain forward looking information and Gensource cautions readers that forward-looking information is based on certain assumptions and risk factors that could cause actual results to differ materially from the expectations of Gensource included in this news release. This news release includes certain “forward-looking statements”, which often, but not always, can be identified by the use of words such as “believes”, “anticipates”, “expects”, “estimates”, “may”, “could”, “would”, “will”, or “plan”. These statements are based on information currently available to Gensource and Gensource provides no assurance that the actual results will meet management’s expectations.

Forward looking statements include estimates and statements with respect to Gensource’s future plans, objectives or goals, to the effect that Gensource or management expects a stated condition or result to occur, including any offering of securities by Gensource. Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results could differ materially from those currently anticipated in such statements for many reasons such as: failure to finance the Tugaska Project or other projects on terms which are economic or at all; failure to settle a definitive agreement with a party and advance and finance the Tugaska Project; changes in general economic conditions and conditions in the financial markets; the ability to find and source off-take agreements; changes in demand and prices for potash; litigation, legislative, environmental and other judicial, regulatory, political and competitive developments; technological and operational difficulties encountered in connection with Gensource’s activities; and other matters discussed in this news release and in filings made with securities regulators. This list is not exhaustive of the factors that may affect any of Gensource’s forward-looking statements. These and other factors should be considered carefully, and readers should not place undue reliance on Gensource’s forward-looking statements. Gensource does not undertake to update any forward-looking statement that may be made from time to time by Gensource or on its behalf, except in accordance with applicable securities laws.
